

## Greenhouse Gas Management

### Driving Business for Sustainability

Srisawad Corporation Public Company Limited (SAWAD) aims to operate responsible lending business under the good corporate governance principles. Therefore, we integrate the commitment to develop the business towards sustainability with the Company's operating strategies to operate according to the concept of sustainable business operations on environment, social, and governance (SDGs). Accordingly, the Company has announced and enforced sustainability management policies, which are in line with the Sustainable Development Goals (SDGs), in order to develop sustainable operational efficiency throughout the supply chain as well as establish an awareness among employees to participate in driving the organization towards sustainability.

## SAWAD is committed to reducing greenhouse gas emissions to zero (Net Zero).

1

The Company is committed to supporting Thailand and our customers in the economic system to reduce the amount of greenhouse gas emissions, and we are ready to announce our commitment to net zero greenhouse gas emissions by 2050, in line with the Paris Agreement.

2

The Company has set a target of net zero greenhouse gas emissions from our operations (Scope 1 and 2) by 2040; we have also included the net zero greenhouse gas emissions target across the Company's portfolio. The Company will continually evaluate business opportunities in order to operate in line with technology and various regulations.

3

The Company is committed to promoting knowledge and understanding of environmental, social and corporate governance issues. (Environmental, Social, Governance: ESG) to stakeholder groups throughout the supply chain, along with promoting the integration of such issues into the operational process to ensure actual implementation and enable the Company to adapt to a low carbon society.
